Record of Communication to SDMS

Telephone Call: Wed March 27, 2013, 1:28 pm, 36:35 minutes: Arkwood Inc. Superfund Site

Mr. Curt Grisham called to convey that he and his father are developing formal letters to EPA HQ (including contacting Congressional representatives) to express their frustration with the information/misinformation/lack of information that they have been historically receiving/not receiving from EPA Region 6 on the Arkwood site (including allegations of unethical behavior from site personnel).

Mr. Grisham stated that he wanted to give me a headsup and asked if I had any comments. I conveyed to him that while it is within his prerogative to contact EPA HQ and Congressional representatives, it would be helpful if he allowed some time for the site team to sort out the items he is concerned about (i.e. communication, dioxin, reuse, FOIA). I assured him that the Region does understand his concerns and that an alternate option would be for he and his father to write to the Superfund Division Director and/or the Regional Administrator.

Mr. Grisham stated that he would allow some time (unspecified, a month or two) and he will confer with his father. He also stated that he will be following up with the OGC attorney on the FOIA appeal.
